

Webinar 2 Assessing the Need for Antibiotics - Learning Outcomes

By undertaking this webinar, participants will have increased:

1. awareness of the need for antibiotic stewardship.
2. awareness of the effect of their antibiotic prescribing in influencing antibiotic resistance in their clinical setting.
3. knowledge about the effect of antibiotics on symptoms and complications in respiratory tract infections in their clinical setting.
4. knowledge of, and ability to use, the scoring systems to help improve antibiotic prescribing in acute sore throat.
5. intention to undertake a sore throat audit in their clinical setting.
